Period fo	The MAILING DATE of this communication app or Reply	pears on the cover sheet with the c	orrespondence address			
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-4, 9-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kodemura et al. US 6,492,443.
- 3. The rejection set forth under 35 USE 103 in the paper mailed 1/11/08 is deemed proper and is herein repeated.
- 4. Applicants newly amended claims and remarks filed in support thereof have been fully considered but have been found not persuasive.
- 5. Applicants have amended the claims so as to specify the polymeric diluent as an EPDM having the unsaturated alkylene groups so as to be co-curable with the polynorbornene. Applicants then argue that the art fails to teach such a component. This is not persuasive. This claimed EPDM having the unsaturated alkylene groups so as to be co-curable with the polynorbornene is rendered obvious by at least two portions of the patent.
- 6. Kodemura is specific as to the claimed polynorbornene, see columns 3 and 4. Further, Kodemura teaches that one can copolymerize the norbornene with other monomers. Column 5 lines 55-60 describes the copolymerization of the norbornene with other monomers. Ethylene and propylene are specifically mentioned herein. As

Application/Control Number: 10/549,238 Page 3

Art Unit: 1796

such, a polymer formed from ethylene, propylene and ethylidene norbornene, column 3 lines 58-59, is suggested. Using norbornene polymers in combination is specifically mentioned at column 8 lines 57-58. As such, compositions comprising the claimed polynorbornene and an EPDM having the unsaturated alkylene groups so as to be cocurable with the polynorbornene is suggested herein.

- 7. Additionally, as noted by applicants, Kodemura calls for additional components. The rubbery polymers are described as being an ethylene-α-olefin-polyene terpolymer rubber at column 19 lines 21-23. This is seen to read on the claimed EPDM having the unsaturated alkylene groups so as to be co-curable with the polynorbornene. Selecting an ethylidene (claim 9) as a polyene is considered an obvious species from a small genus.
- 8. The alleged unexpected results have been fully considered but have been found insufficient so as to rebut the prima facie case of obviousness. Specifically, there is no showing of record that compares the closest prior art with the scope of the claimed invention.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Application/Control Number: 10/549,238 Page 4

Art Unit: 1796

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter D. Mulcahy whose telephone number is 571-272-1107. The examiner can normally be reached on Mon.-Fri. 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
